Applications: metal sheets, stainless steel, light alloy, non-ferrous metals. Assembly:

by pressure.

M4	7,3
M5	7,3

Anchorage pressure may vary depending on material hardness.

The optimum pressure value is empirically achieved. For a correct use of the products observe the specified hole diameters and tolerances.

DC standoff must be inserted flat to the sheet metal surface. Avoid any over-pressure.

It is advisable to carry out some preliminary assembling tests in order to have the best assembly.
